

# 8-Week Language Learning Planner

A reusable weekly structure for building a sustainable language-learning routine.

## Weekly rhythm

- 2 × 20 min vocabulary / spaced repetition
- 2 × 30 min listening + shadowing
- 1 × 30 min grammar in context
- 2 × 15 min speaking or writing
- 1 weekly review of mistakes and progress

## Weeks 1–2

Baseline: define your target, test your level, build a small core vocabulary and establish a routine.

## Weeks 3–4

Activation: use more speaking and writing. Recycle vocabulary in your own sentences.

## Weeks 5–6

Expansion: consume authentic content, add topic-specific vocabulary and practise longer output.

## Weeks 7–8

Consolidation: repeat weak areas, simulate real situations and compare your performance with week 1.

## Track these metrics

- Minutes learned per week
- Active words / expressions
- Speaking sessions completed
- Recurring errors
- One concrete real-life task you can now do better
